

UV Conveyor Systems

UV conveyor systems for long parts and high volume production

SunBelt

- 33"-wide belt, 25" cure width
- High intensity: 2150 mW/cm² UVA at 2"
- Variable speed, up to 58' ft/min
- Adjustable lamp height and forced air cooling
- Convenient front mounted controls and indicators panel
- Lamp ballast programming software

Sunbelt BT9

- 9" wide belt, 5" cure width
- Lamp head options: PortaRay broad spectrum UV arc lamps or SkyRay LEDs
- Intensity: up to 2,200 mW/cm² @ 1"
- Variable speed, up to 29 ft/min - Digital speed display
- Adjustable lamp height & full UV shielding
- Dual spectrum lamp capable

UV Conveyor 40 Plus

- 9"-wide belt, 6" cure width
- Intensity: 175 mW/cm² UVA at 3"
- 5" x 5" sidecure curing area
- 500 mW/cm² sidecure intensity
- Adjustable lamp height and full UV shielding
- Benchtop or with optional mounting stands

UV Conveyor 40 + SkyRay

- 9" wide belt, 5" cure width
- Up to 2200 mW/cm² intensity at 1"
- Cool-output long-life LEDs available in 4 spectral types
- Microprocessor control of time and intensity / Remote control and reporting via PC or PLC
- Benchtop or w/ optional mounting stands
