

UV Spot Systems

High Intensity Focused UV Spot Systems

SunSpot 2

- Curing area: 1.5" spot size at 3"
- 18,000 mW/cm² intensity, focused curing area
- Connector for external monitor/control via PC or PLC
- Includes liquid light guide and foot pedal
- Safety interlocks for light guide removal
- Multi-pole light guide compatible
- 2000+ hours of lamp life

SkyBeam

- Curing area: from 3mm to 15mm
- Intensity: from 900 to 14,000 mW/cm²
- 4 independent irradiation channels
- Built-in power supply
- Long-life flexible light guides, 4 wavelengths
- Cool operation
- Security key switch

Light Guides

- Multi-pole light guides: 2, 3 and 4-pole
- Liquid light guides
- Fiber light guides
- 5mm and 8mm width options
- 1m, 1.5m and 2m length options
- Reference rod for measuring light guide performance

Spot Accessories

- Arc lamp modules
- Foot pedal shutter controls
- Reference rod for measuring light guide performance
- Reflector assembly
- Dichroic mirror
- PLC interface cable
- Fan foam filters
